Summary

Entry-level software developer with backend development experience (Node.js, Express.js, REST APIs) and exposure to AI-assisted / generative AI development (RAG, GenAI projects). Strong foundation in OOP, DSA (750+ problems solved), databases, and Git workflows.

Education

Pune Institute of Computer Technology **2022-2026**
BE ENTC Engineering, ***CGPA-8.04*** *Pune, India*

Skills

Languages: Python, Java, C++
Backend & APIs: Node.js, Express.js, REST API design , & integration, JDBC
Databases: MongoDB (NoSQL), relational database fundamentals (DBMS)
AI : Generative AI, Retrieval-Augmented Generation (RAG), Google Gemini API, FAISS vector search,
Tools & Deployment: Git , docker , kubernetes , VS Code, PyCharm, IntelliJ, Eclipse, debugging, code reviews
Core CS: OOP, Data Structures & Algorithms (DSA), Operating Systems, DBMS

Experience

Goanny Technology **January 2024 - March 2024**
Software Developer Intern *Remote*

- Designed and developed a complete **Billing Software** using **Nodejs** for the backend and **ReactJS** for the frontend, automating invoice generation and management.
- Integrated RESTful APIs to enable seamless data exchange between frontend and backend services.
- Developed modules to track **delivery**, **sales**, and **quotations**, enabling comprehensive monitoring and reporting of transactions.

Coding Profile

LEETCODE **CODEFORCES** **CODECHEF**

Personal Projects

AI-Powered RAG-Based Document Chatbot **Feb 2025 – Mar 2025**

- Built a **RAG-based Document Q&A chatbot** using **Flask** and **Google Gemini API** for intelligent document search and question answering.
- Implemented document ingestion, chunking, embedding generation, and **vector similarity search (FAISS)**.
- Enabled context-aware responses using top-K retrieval and prompt augmentation with a simple web interface.

CODEVERSE **Jan 2025 – April 2025**

- **Tech Stack**: **React.js**, **Node.js**, **Express.js**, **MongoDB**
- **Aggregated** coding progress from multiple platforms **GitHub**, **LeetCode**, **Codeforces**) using **web scraping** and **REST API**.
- Implemented **JWT-based authentication** with **role-based access control**.

KrishiYantra – Smart Farming System **Jan 2025 – Feb 2025**

- **Tech Stack**: **GenAI**, **React.js**, **Node.js**, **MongoDB**
- Developed an **AI-powered smart farming platform** to optimize **irrigation management and crop planning**.
- Built a **secure crop marketplace** enabling farmers to directly buy and sell crops with buyers.
- Improved **transparency and efficiency** in agricultural trade workflows through a centralized platform.

Achievements

Cadence Scholar Mentee award recipient for Academic excellence
Ranked 768 among **98 Country** in TCS CODEVITA Coding Competition among **444k+ Participation**
Finalist for **Mastercard Code for Change Hackathon** among **1200+ Participant**
Solved **750+ problems** of DSA on various platforms and **1700+ Highest rating on Leetcode**

Extracurricular

- Worked as a part of **Admin and Management** team of Pulzion
- **Certification**: Drive
